Modifications-Mobility

Vision Technology- Audible Tools

Built in features in Smart Phones

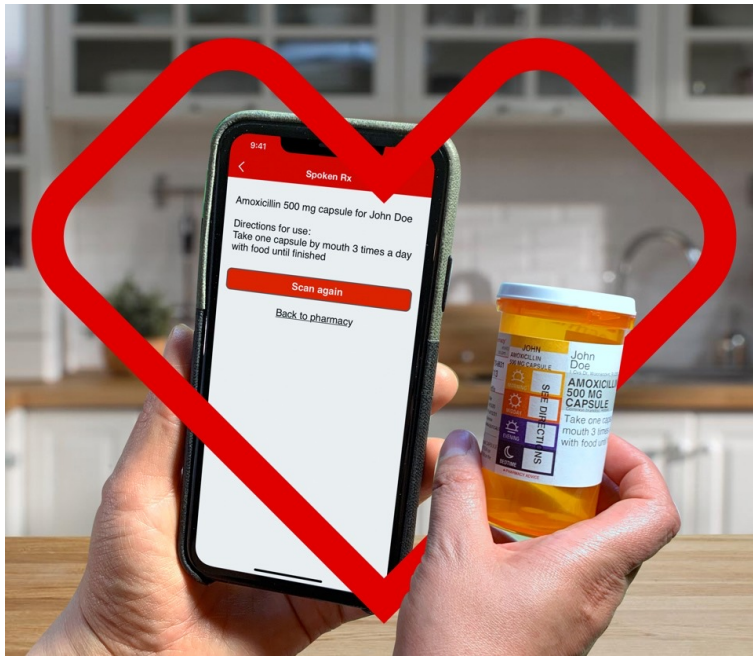

Audible Tools like talking scales, glucose monitors and sensor mugs and liquid level detectors

Vision Technology-Prescription Readers

Walgreens & CVS and other pharmacies offer prescription label readers for free

Also talking pill reminders

Vision Technology - OrCam

[Help People who are Blind or Partially Sighted – OrCam](https://orcam.com/en) <https://orcam.com/en>

- Read Text
- Recognize Faces
- Identify Products
- Recognize Barcodes
- Recognize Money
- Identify colors

Vision Technology-AI

MyMe helps you keep track of all your social encounters and interactions while performing big data analysis to generate charts that would help the user divide time and balance various aspects of his/her life.

In many ways, MyMe does seem to be like Google Glass. However, its camera doesn't sit right on your face, which makes it a lot more comfortable. But it may still lead to people questioning you about a camera on your shirt that might possibly be surveilling them.

Vision Technology-GPS

WayBand - Their First Wearable Haptic Navigation Device For The Blind And Visually Impaired
[Wayband® by WearWorks® - Wayband](https://www.wear.works) <https://www.wear.works>

Accessible Computer Access & Environmental Controls

Skyle iGaze for iPad

Bluetooth Joystick

Smart Technologies

HouseMate

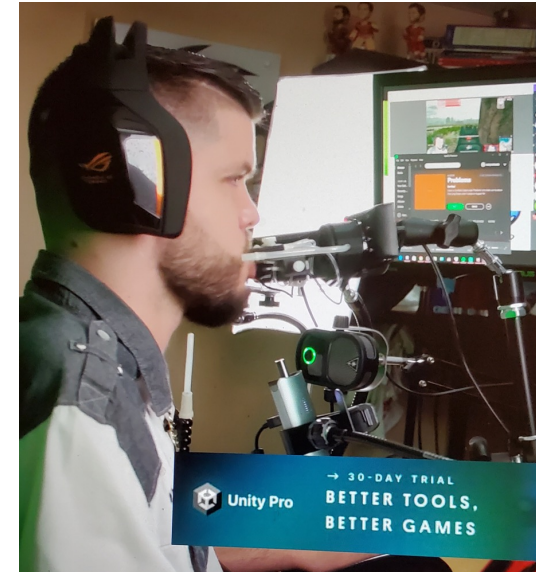

Built in switch access and apps like ClickToPhone

Accessible Gaming

Single Handed Xbox
Controller

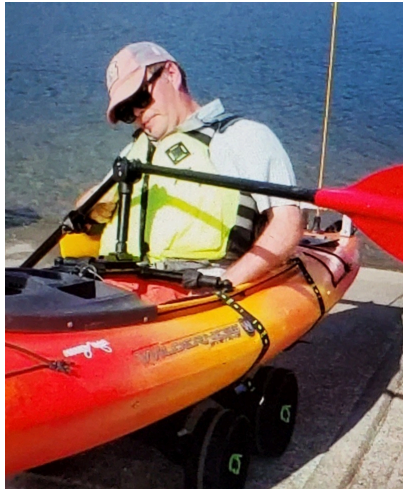

[12 Adaptive Gaming Controllers for Disabled People - LifeZest](#)

Davison says the Singleton Quadstick can plug directly into the Xbox Accessible Controller, but “most people use it with ‘copilot’ since the XAC USB joystick support is limited compared to just running the two in parallel. Pitbull Reese uses both an XAC and Quadstick.”

Accessible Recreation

Mobility - Braces

Saebo

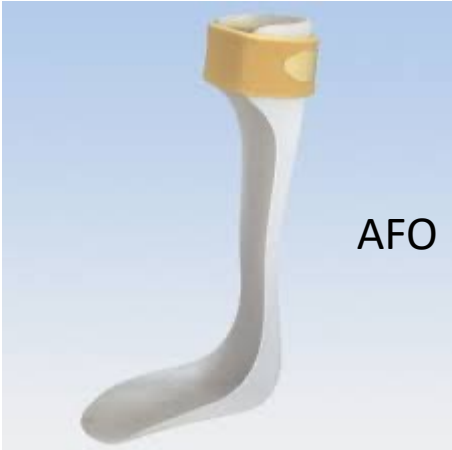

External Drop foot brace

Drop foot brace

AFO

KAFO

Dynamic AFO

Mobility - Walkers

Mobility - Crutches

Mobility – Wheelchairs

Mobility – Power Assist

Mobility – Sports & Recreation

Action Trackchair

Lasher

Mobi

Alinker

Race Runner

Mobility-Walking Technologies

Phoenix

Indego

ReWalk

E Mag

C Brace

Bioness
