The SRNA publishes a newsletter 3 times a year and an annual report that is distributed to its membership. The newsletters contain articles written by physicians that focus on rare neuroimmunologic disorders as well as the most effective treatments for symptom management. Regular updates that relate information about new treatments and research are also included. The SRNA maintains an extensive website with educational materials that include specific symptom and condition information for rare neuroimmunologic diseases; podcasts with physicians, blogs written by medical professionals as well as SRNA members; and archives of all past newsletters. The website also facilitates support contracts between patients and their families through support groups and social media contacts. In addition, the SRNA has held a symposium to bring together individuals diagnosed with rare neuroimmune disorders and the clinicians and researchers that focus on these disorders. This event is the only one of its kind. Our goal is to continue providing this valuable resource to our community for many years to come.

The SRNA is also providing support to participating medical centers by assisting in the recruitment of pediatric patients to take part in the CAPTURE (Collaborative Assessment of Pediatric Transverse Myelitis: Understand, Reveal, Educate) study funded by PCORI. The study is designed to assess the current state of Pediatric TM (including AFM or Acute Flaccid Myelitis) in terms of diagnosis, treatment and outcomes.
